

## **To All Tour Operators and Tour Agents**

As you may be aware, the government has revised the visa fees and abolished the tourism visa waiver as per the attached schedule.

This will have an impact on the industry in terms of tourist arrivals for the Zambian market.

While we are lobbying Government to reconsider its decision, we have at the same time contracted a consultant Mr. Adam Pope to carry out a study and come up with a more comprehensive researched paper. This is important so that we engage government from an informed and evidence-based position.

The main reason for writing is to advise you to complete the set of questionnaires that will be circulating amongst our members.

We apologise if you have received this from a number of sources. Please ensure that you complete the relevant questionnaire only once and return to Mr. Adam Pope on [adampope@iwayafrica.com](mailto:adampope@iwayafrica.com).

We thank you in advance and we look forward to your usual cooperation.

Yours sincerely,

Josephine S. Mehl  
**Executive Director**  
**Tourism Council of Zambia**
